Sina Rismanchian

School of Education • University of California, Irvine
srismanc@uci.edu • +1 (949) 685-5348

RESEARCH INTERESTS

AI in Education • Cognitive Surrender • Computational Models of Learning • AI Literacy

EDUCATION

2022–present	Ph.D., Education, University of California, Irvine Advisor: Shayan Doroudi
2022–2024	M.A., Education, University of California, Irvine (GPA: 3.95)
2016–2022	B.Sc., Computer Engineering, Sharif University of Technology, Tehran, Iran (GPA: 18.27/20)

PUBLICATIONS

Journal Articles

Rismanchian, S., Babar, E. T. R., & Doroudi, S. (2026). What undergraduate students need to know and actually know about generative AI. *Computers and Education: Artificial Intelligence*, 100554.

Rismanchian, S., & Doroudi, S. (2025a). The evolution of research on AI and education across four decades: Insights from the AIxEd framework. *International Journal of Artificial Intelligence in Education*.

Peer-reviewed Conference Papers

Jiang, Z., Li, Q., **Rismanchian, S.**, Kim, J., Xu, Z., & Xu, D. (2026). Timewise: Integrating cognitive behavioral therapy and self-regulated learning in an LLM-based time management coaching system to support college students in online learning. *Proceedings of the Society for Information Technology & Teacher Education International Conference*, 3537–3547.

Mohammadi, I., Keramati, A., & **Rismanchian, S.** (2026). Mapping instructors' attitudes towards cheating with AI: An exploratory analysis using forum analysis. In B. K. Litts, D. DeLiema, C. Lee, C. Krist, A. Mawasi, L. Martin, & K. Kumpulainen (Eds.), *Proceedings of the 20th International Conference of the Learning Sciences – ICLS 2026* (pp. 2091–2095). International Society of the Learning Sciences.

Pan, M., **Rismanchian, S.**, & Doroudi, S. (2026). From empirical replication to hypothesis generation: Concretizing our understanding of learning with a computational model of ICAP. *Proceedings of the 27th International Conference on Artificial Intelligence in Education*, 602–611.

Rismanchian, S., & Doroudi, S. (2025b). Reconciling different theories of learning with an agent-based model of procedural learning. *Proceedings of the Annual Meeting of the Cognitive Science Society*.

Rismanchian, S., Razeghi, Y., Singh, S., & Doroudi, S. (2025). TurtleBench: A visual programming

benchmark in turtle geometry. *Conference of the Nations of the Americas Chapter of the Association for Computational Linguistics*.

Rismanchian, S., Doroudi, S., & Razeghi, Y. (2024). Turtle-like geometry learning: How humans and machines differ in learning turtle geometry. *Proceedings of the AAAI 2024 Spring Symposium on Human-Like Learning*.

Rismanchian, S., & Doroudi, S. (2023a). A computational model for the ICAP framework: Exploring agent-based modeling as an AIED methodology. *Proceedings of the 24th International Conference on Artificial Intelligence in Education*, 792–797.

Rismanchian, S., & Doroudi, S. (2023b). Four interactions between AI and education: Broadening our perspective on what AI can offer education. *Artificial Intelligence in Education. Posters, Late Breaking Results, Workshops, and Doctoral Consortium: 24th International Conference*, 1–12.

Book Chapters

Rismanchian, S., & Doroudi, S. (2026). Learning by co-constructing with stupid (but useful) generative AI. In E. de Freitas, M. X. Curinga, E. J. Dixon-Roman, & P. T. Webb (Eds.), *Learning Under Algorithmic Conditions*. University of Minnesota Press.

Manuscripts Under Review and Preprints

Liu, P., Cariaso, M., Chacon, R. A., Cortes-Ramirez, B., Khandaker, A., Lai, C. P., **Rismanchian, S.**, & Doroudi, S. (2026). Virtuous AI course design: Co-designing chatbots with undergraduate students for intellectual virtue education [Manuscript under review].

Matayoshi, J., **Rismanchian, S.**, Cosyn, E., Uzun, H., & Kurd-Misto, E. (2026). Clustering wrong answers to detect math misconceptions in free-form responses [Manuscript under review].

Rismanchian, S., & Dabby, N. (2026). From teacher intent to student participation: Towards learning analytics for teacher-created AI chatbots [Manuscript under review].

Rismanchian, S., Liu, P., Orona, G., Pritchard, D., & Doroudi, S. (2026). Artificial integrity: Concerning patterns of AI usage among undergraduate students [Manuscript under review].

Rismanchian, S., Uzun, H., Matayoshi, J., Cosyn, E., & Kurd-Misto, E. (2026). Faster completion, less learning: Generative AI reduced study time on math problems and the knowledge they build [Manuscript under review].

Kim, J., **Rismanchian, S.**, Xu, D., & Yu, R. (2025). Toward more equitable learning environments: Insights from digital trace data on inclusive instructional design features [Manuscript under review].

Ojeda-Ramirez, S., **Rismanchian, S.**, & Doroudi, S. (2023). Learning about AI to learn about learning: Artificial intelligence as a tool for metacognitive reflection [Manuscript under review].

FELLOWSHIPS, GRANTS, AND AWARDS

2026–27	Gardner Fellow, Center for Studies in Higher Education, University of California, Berkeley
2026	Interdisciplinary Research Program ($2,000), University of California, Irvine
2025–26	Distinguished Public Impact Fellow ($10,000), University of California, Irvine
2025	Doctoral Consortium on Responsible Computing, AI, and Society, Georgia Tech, Atlanta, GA
2023	Travel and Registration Scholarship, 24th International Conference on Artificial Intelligence in Education, Tokyo, Japan
2023	Admitted with Registration Scholarship, Simon Initiative's LearnLab Summer School, Carnegie Mellon University, Pittsburgh, PA
2022	Best Task Award, International Bebras Challenge, North Macedonia
2021	Admitted to the ASCI Internship Program, Aalto University, Finland

RESEARCH EXPERIENCE

2026	Research Intern, Playlab, USA Studied the design space of teacher-created educational AI chatbots to measure and identify deeper learning opportunities in learner-AI interactions
2025	Data Science and AI Intern, McGraw Hill, USA Fine-tuning and prompt-engineering LLMs to predict student learning behaviors on ALEKS; generating faded worked examples; identifying student misconceptions in algebra.
2021	Research Intern, HCI Group, Aalto University, Finland Supervisor: Antti Oulasvirta. Applied deep reinforcement learning to develop AI teaching agents for second-language vocabulary instruction, incorporating learner cognitive models.

TEACHING EXPERIENCE

University of California, Irvine

2025	Teaching Assistant: The Adolescent Learner (Instructor: Jessica Oviatt)
2024	Teaching Assistant: Understanding Teacher Agency (Instructor: Jody Guarino)
2024	Teaching Assistant: Cognition and Learning in K–12 Education (Instructor: Shayan Doroudi)

Sharif University of Technology

2020	Teaching Assistant: System Analysis and Design (Instructor: Amin Fazli)
2018–19	Teaching Assistant: Probability and Statistics (Instructor: Ali Sharifi-Zarchi)
2018	Teaching Assistant: Data Structures and Algorithms (Instructor: Mohammad Ghodsi)
2017–18	Teaching Assistant: Fundamentals of Programming in C

Secondary School Instruction

2021–2022 Geometry, Hemmat High School, Isfahan, Iran

2019–2021 C++ Programming and Computational Thinking, Allame Helli 5 High School (NODET), Tehran, Iran

ACADEMIC SERVICE

Reviewing and Program Committees

2026 Program Committee, International Conference on Artificial Intelligence in Education (AIED)

2025 Reviewer, Nature Communications

2025 Reviewer, NeurIPS Multimodal Algorithmic Reasoning Workshop

2025 Reviewer, ACM TEI 26

2024– Reviewer, ACM CHI Conference on Human Factors in Computing Systems

2023– Reviewer, International Journal of Interactive Learning Environments

UNIVERSITY AND COMMUNITY SERVICE

2025– Vice President, Associated Doctoral Students in Education, School of Education, UC Irvine

2024– International Students Representative, Associated Doctoral Students in Education, School of Education, UC Irvine

2022 Scientific Team Member, Bebras Computing Contest, Fatemi Cultural Institute

2021 Central Council Member, Students' Scientific Chapter, Computer Engineering Department, Sharif University of Technology

2020 Product Owner, Rastaa Summer School interactive platform (6 interdisciplinary workshops; 100+ high school students)

2019 Curriculum Designer, Quera College, *Fundamentals of Programming and Algorithmic Thinking* (10,000+ enrolled students)

2018 Workshop Lead, Probability and Statistics, Computer Science Summer School (120+ students), Isfahan, Iran

MEDIA COVERAGE

2026 *The New York Times Magazine*: "Will A.I. Make Your Brain Lazy? Here's What the New Research Actually Shows", by Juliana Castro Varón and Dylan Freedman (September 29, 2026)

2026 *The 74*: "The End of Homework? Teachers Grapple With Cheating in the Age of AI", by Greg Toppo (July 14, 2026)

2026 *The Hechinger Report*: "Faster solutions, lower test scores: How AI is eroding math skills", by Jill Barshay (July 6, 2026)

2026 *Forbes*: "Study: Using AI Chatbots Creates Significant Learning Loss", by Derek Newton (June 30, 2026)

2026 *The Chronicle of Higher Education*: "Jagged Intelligence: Community colleges are leading in AI", by Jeffrey R. Young (June 30, 2026)

METHODS AND TOOLS

R • Python • Causal inference with observational data (fixed-effects and event-study designs) • Item response theory • Machine learning and NLP (transformer fine-tuning, LLM-based coding and evaluation) • Agent-based modeling

LANGUAGES

English: Bilingual Proficiency • Persian: Native • Arabic: Basic Reading
